

YASH RANPURA

MERN STACK DEVELOPER

yashranpura3@gmail.com | 9737126164 | Ahmedabad, Gujarat | [linkedin.com/in/yashranpura](https://www.linkedin.com/in/yashranpura)

SUMMARY

MERN Stack Developer with 1.9+ years of professional experience in designing, developing, and deploying scalable web applications. Experienced across the full development lifecycle, with strong expertise in React.js, JavaScript, Redux, TanStack Query, Node.js, Express.js, RESTful APIs, MongoDB, and MySQL. Skilled in building responsive and reusable UI components, developing secure backend APIs, integrating databases and third-party services, implementing authentication, and deploying production-ready applications. Committed to writing clean, maintainable, and efficient code while delivering reliable, user-focused solutions. **Currently seeking IT roles such as MERN Stack Developer, React.js Developer, and Full-Stack / Frontend Developer, where I can contribute to building scalable, production-ready web applications.**

WORK EXPERIENCE

MERN Stack Developer

01/2025 - 09/2026

Maxgen Technologies Pvt. Ltd.

Ahmedabad

- Developed and maintained scalable full-stack web applications using React.js, JavaScript, Node.js, Express.js, MongoDB, and MySQL.
- Built responsive and reusable UI components, developed and integrated RESTful APIs, and implemented authentication and database solutions.
- Worked with Redux, TanStack Query, Tailwind CSS, Git, and third-party integrations across multiple projects.

EDUCATION

Master of Science in Information Technology (M.Sc. IT)

04/2023 - 05/2025

GLS University, Ahmedabad

Ahmedabad

- Completed postgraduate studies in Information Technology with a focus on software development, programming, database management, web technologies, and application development.

KEY SKILLS

- | | |
|--|--------------------------------------|
| ▶ React.js & JavaScript (ES6+) | ▶ Node.js & Express.js |
| ▶ RESTful API Development & Integration | ▶ Redux & TanStack Query |
| ▶ React Hooks & Reusable Components | ▶ JWT Authentication & Authorization |
| ▶ Third-Party API & Payment Integration | ▶ Git, GitHub & Postman |
| ▶ Deployment & Hosting: Vercel, Netlify & cPanel | ▶ HTML5, CSS3 & Tailwind CSS |
| ▶ MongoDB & MySQL | ▶ Responsive Web Design |

English — Professional Working Proficiency | **Hindi** — Professional Working Proficiency | **Gujarati** — Native Proficiency

PROJECTS CONTRIBUTION

▶ Hire Me Jobs — Recruitment Management Platform

Super Admin Dashboard: manage.hiremejobs.in | Company Admin Dashboard: recruiter.hiremejobs.in/dashboard

Technologies: React.js · JavaScript · Tailwind CSS · REST API · TanStack Query · React Router · Authentication Protected Routes · Git

Contributed to the development of recruitment management and recruiter dashboard platforms for managing jobs, candidates, applications, and hiring workflows. Developed responsive React interfaces, integrated REST APIs using TanStack Query, implemented authentication and protected routes, and built search, filtering, pagination, and reusable components for scalable and efficient application management.

▶ Gram Ekta Foundation — NGO Website & Admin Panel

Web Domain: gramektafoundation.org | Admin Panel Domain: admin.gramektafoundation.org

Technologies: React.js · JavaScript · Tailwind CSS · HTML5 · REST API · Responsive Web Design · Git

Contributed to the development of a responsive NGO website and Admin Panel for showcasing and managing rural community development initiatives. Developed reusable React components, integrated REST APIs for dynamic content management, and implemented responsive interfaces for programs focused on education, clean water, farmer empowerment, sustainability, and social welfare.

► CA Management System — Business & Client Management Platform

Panel Domain: [ca-management-mu.vercel.app](#)

Technologies: [React.js](#) · [JavaScript](#) · [REST API](#) · [Bootstrap](#) · [Tailwind CSS](#) · [Git](#)

Developed a role-based CA Management Panel with dedicated access and dashboards for Admin, Staff, and Clients. Implemented secure authentication and Role-Based Access Control (RBAC), along with task management, client document management for TDS, GST, KYC, and financial records, and REST API integration for services, invoices, and data synchronization.

► Kevelion — B2B E-Commerce & Marketplace Platform

Web Domain: [kevelion.com](#) | Vendor Dashboard: [vendor.kevelion.com](#) | Admin Dashboard: [admin.kevelion.com](#)

Technologies: [React.js](#) · [JavaScript](#) · [Tailwind CSS](#) · [REST API](#) · [TanStack Query](#) · [Authentication](#) · [Role-Based Access Control](#) · [Responsive Design](#) · [Git](#)

Contributed to the development of a B2B e-commerce and marketplace platform, with a primary focus on the Vendor and Admin Dashboards. Developed responsive dashboard interfaces for product, inventory, buyer, order, complaint, subscription, and business management, integrated REST APIs using TanStack Query, and implemented role-based access, reusable components, and scalable workflows.

► Additional Projects & Contributions

- House of Resha — E-Commerce Website ([houseofresha.com](#))
- Svakaraa — E-Commerce Website ([svakaraa.com](#))

Technologies: [React.js](#) · [JavaScript](#) · [Tailwind CSS](#) · [REST API](#) · [Responsive Design](#) · [Git](#)

Contributed to multiple production-level and freelance web applications, including e-commerce platforms, business websites, management systems, and dashboards. Worked across frontend development, reusable components, API integration, authentication, responsive UI, state management, testing, optimization, and deployment, translating business requirements into scalable and user-friendly solutions.

► Only Meter India — Taxi & Ride Booking Platform

Web Domain: [onlymeterindia.com](#)

Technologies: [React.js](#) · [JavaScript](#) · [Tailwind CSS](#) · [REST API](#) · [Responsive Web Design](#) · [Git](#)

Developed a responsive taxi and ride-booking service website to promote the Only Meter India mobile application and its ride-booking services. Built user-friendly sections for showcasing services, application features, ride booking information, and business offerings, with a responsive design optimized for desktop and mobile users.
